

World's first University for life transformation

MIT-World Peace University

Standard Operating Procedures

FOR

**Reopening of University Campus for Students post
COVID-19 pandemic**

Version	1
Authorized by	MIT-World Peace University

This SOP is effective from 20 October 2021

Precautions to be taken at Entry / Exit Gates

1. Crowding should be avoided at entry / exit points.
2. There are thermal screening provisions on entry gates. Students should cooperate with the staff for necessary screening.
3. It is mandatory for students to show Vaccination Certificate and must follow hand hygiene habits while entering to the buildings / classrooms.
4. Only asymptomatic staff/students/visitors shall be allowed entry.

Precautions to be taken at School / Department / Common Area

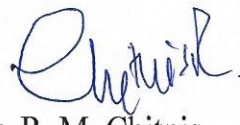

1. Vaccination certificates of all the students, and other associated personnel must be submitted to the HOS / Dean office for record-keeping through survey cum consent form.
2. Any non-vaccinated personnel should be strongly encouraged to get vaccinated (with both doses). Students can book their slots through Arogyasetu app at VishwaRaj Clinic, MIT-WPU Campus.
3. Meetings, as far as possible, should be done through video conferencing. Large physical gatherings continue to remain prohibited.
4. Building Supervisors shall ensure proper cleaning and frequent sanitization (at least twice a day) of the workplace, particularly of the frequently touched surfaces and rooms like conference Room will be carried out by concerned staff.
5. It is mandatory to follow precautionary measures like use of masks, sanitizer & social distancing especially in the places like canteen, Gymkhana & other common areas
6. Crowding should be avoided at all times.

Precautions on noticing Covid-19 symptoms / positive cases

1. In case of noticing a symptomatic individual, place the unwell person in a room or area (pre-identified) where he / she is isolated
2. Provide a mask / face cover.
3. Immediately inform the VishwaRaj Clinic or nearby COVID-19 Hospital to arrange for sample collection for testing for covid-19.
4. A risk assessment will be undertaken by the designated public health authority (district RRT / treating physician) and accordingly further advice shall be made regarding the management of the case, his / her contacts and the need for disinfection.
